#### **Section B: Details in respect of the following (attach separate sheet).**

##### **1. Activities reflecting the goals and objectives of the institution**

With the realisation of the fact that knowledge is the engine of growth of any nation and the generation of wealth is going to depend on the knowledge base of the society, education has taken the centre stage in the policy framework of our government. If our country wants to join the comity of developed countries, it has to not only eradicate poverty but has to take a big leap in creating new knowledge and technology for which the institutions of higher learning are to be developed into centres where new knowledge and technology would be developed. The Central Government, under the able leadership of Statesmen Prime Minister Dr. Manmohan Singh and Minister of Human Resource Development Mr. Kapil Sibal are engaged in the gigantic task of total revamp of the higher education scenario in the country. The recommendations of the National

Knowledge Commission and of the Yashpal Committee are being given shape in the form of National Commission for Higher Education and Research, which will become the Apex body in the field of higher education by the end of this year. One of the tasks that this Apex body is charged to complete on priority is to establish around 1500 universities by 2015. To accomplish this target, the National Commission for Higher Education and Research has provisions to empower around 250 odd autonomous colleges to award their own degrees, bringing to culmination the process that was initiated in the mid 80s by giving autonomous status to some outstanding Colleges of the Universities, so that they may respond speedily to adopt the changes that are going on in the society reducing the gap between knowledge generation in the Universities and the application of the same in society.

These developments at the National level are definitely going to impinge on the destiny of the College and it seems that Ewing Christian College will very soon gain the glory that it deserves and is long overdue. In fact, while writing this page, the College is in the process of introducing Post Graduate courses in the faculty of Arts and Science, in some selected subjects, which has been possible only because of the unstinted support of the University, which has helped the College to gain autonomy in 1994 and in getting it extended in 1999 and again in 2007 up to 2013. The College believes that the minor hassles at the University level will soon be resolved and the College will be able to move on its growth path with the blessings of the University.

It is fortunate that at this juncture, when the College is planning to move on a fast track, it is having the blessings of a very dynamic and visionary Chairperson, Rt. Rev. Morris Edgar Dan, Bishop of the Diocese of Lucknow, Church of North India. While the College is striving hard to expand its area of activity both horizontally and vertically, it is committed to ensure quality in all its academic activities, for which it has been known for more than a century.

It will be the endeavour of all the stake holders - management, administration, faculty, non-teaching staff, students and alumni to achieve excellence in the field of education and to "Study to show ourselves approved unto God".

The academic year 2009-10 is coming to an end. Each one of us involved in teaching and learning tends to look back at the end of the year to evaluate our performance and also to plan for future.

ECCAA is an association of dynamic and visionary seniors and also youthful and energetic younger generation of alumni. Young or senior, they are all committed to one cause of taking the college forward and also to see that nothing that was good and glorious in the past is lost by any means. In my report last year I had emphasized on the fact that ECCAA committed to revolutionize our goal-setting patterns and goal-achieving procedures.

It is obvious even as we have gathered this evening to celebrate our day today that we are small number wise but nevertheless we can boast we have been shining and as the old saying goes “It is better to be small and shine than to be big and cast a shadow”, we want to grow from strength to strength and continue to support our college in whatever way we can. I wish to report this evening the following activities ECCAA organized during 2009-10.

#### **Special Scholarships :**
